

RS-232 Cable with Female DB-9 for MRX-2 and MSC-400

RS232F

SKU: 21971    UPC: 65678730402

RS232 cable with female DB9 for MSC-400. The MSC-400 Master System Controller combines RF communication technology, redundancy, error-correction algorithms, and advanced engineering to make sure every remote control signal is delivered every time. If you use the MSC-400 Master System Controller in your home theater system, you can control serial devices by connecting them with RS232 cables (up to 6). This RS232 Cable for the MSC-400 Master System Controller has a male DB9 connector.
