

ILLUMIVUE™ BY MSTR

32-Channel Standard PoE NVR (No Hard Drive)

NVR32

SKU: 178633 UPC: 81993201318

Introducing the Illumivue 32-Channel Standard PoE NVR – the ultimate surveillance solution for your security needs. This advanced network video recorder (NVR) offers top-of-the-line features and performance, making it an essential component for any professional surveillance system.

With its 32-channel capacity, the Illumivue NVR32 provides ample room for connecting up to 32 high-definition IP cameras. Whether securing a home, office, or any other commercial property, this NVR offers the flexibility to accommodate any specific surveillance requirements.

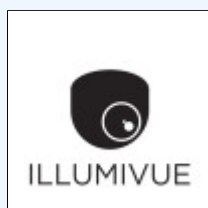

Equipped with Power over Ethernet (PoE) technology, the Illumivue NVR32 simplifies installation and reduces cable clutter. By leveraging a single Ethernet cable, both power and data transmission are seamlessly integrated, allowing for a quick and hassle-free setup. This ensures a reliable and stable connection between the NVR and IP cameras, minimizing downtime and optimizing performance.

The Illumivue NVR32 supports a wide range of recording resolutions, including ultra-high-definition (UHD) and 4K, ensuring crystal-clear image quality for capturing every detail. With its powerful processor and robust hardware, this NVR delivers smooth real-time video streaming and playback, allowing the user to monitor their property with precision and clarity.

The Illumivue NVR32 also boasts advanced features such as motion detection, event notifications, and intelligent search capabilities. Customize the system to trigger alerts and notifications when any suspicious activity is detected, ensuring that the user never misses a crucial moment. The intelligent search function enables one to quickly locate specific events within the recorded footage, saving valuable time and effort.

Features

- 32 Channel NVR with 16 PoE Ports
- Supports Ultra 265/H.265/H.264 Video Formats
- 4 SATA HDD up to 10TB each (Not Included)
