

Artison

Studio 46 Soundbar w/ Grille

STUDIO46-BG

SKU: 169268 UPC: 827531002309

Engineered to deliver state-of-the-art playback for your favorite music, movies, and broadcast programs, Artison Studio Soundbars are crafted from the finest materials used in speaker construction today, delivering audio quality and performance that are truly a cut above.

Mounting options are available for any type of installation - includes all hardware required for free standing or wall mount setup, with our TV Mount Hardware Kit available for purchase separately.

Now shipping with standard sized grille in black. If your project requires the Artison Studio Soundbar to hide in plain sight, tailor-made custom grilles can be ordered and shipped separately, for a perfect fit every time, even on displays with uneven bezels.

Features

- Driver Complement:
 - 6 - 3.5"(89mm) Long Throw Carbon Fiber Midrange / Woofers
 - 3 - 25mm Vifa DX Super Audio Tweeters
 - 2 - 19mm Stage Tweeters
- Optional TV mounting brackets attach to the display's VESA mounts, allowing the audio to travel with the video even if the display is on an articulating arm.
- Extruded aluminum black anodized cabinet provides a system that will work with even the thinnest of displays without sacrificing performance.
- Side firing Stage Tweeters, make the sound stage extend far beyond the display.
- Long Throw Carbon Fiber Woofers and Vifa DX 25mm Super Audio Tweeters deliver "state-of-the-art" audio, for accurate and dynamic reproduction.
- Centered, rear input terminals allow for easy wire routing.
- Gold plated spring connectors ensure a good connection for the life of the installation.
- Includes standard grille in black, perfectly matched to soundbar.
- Custom grille options are available to match any size display, providing a seamless look and reliable, consistent, quality audio without needing to replace the soundbar if a display has been upgraded to a larger size.

Driver Complement:

- 6 - 3.5" (89mm) Long Throw Carbon Fiber Midrange / Woofers
