

## Expandable Media Box with Duplex Receptacle

45-0061-WH

SKU: 47366    UPC: 660559008881

DataComm Electronics Expandable Media Box with Duplex Surge Receptacle is designed to streamline power and cable management behind your wall mounted TV. The expandable portion of the Media Box allows for maximum storage hidden behind your TV, while still allowing your TV to mount flush against the wall.

### Features:

- Low profile design fits behind the industrys thinnest mounts and TVs
- Ideal for concealing streaming media players
- Conceal multiple AV cables and accessories behind your wall mounted TV
- Wall box storage capacity increases by 75% when expandable portion is extended into the wall
- 15 Amp / 125 Volt tamper resistant duplex surge suppression receptacle allows power to be installed behind a wall mounted TV or similar application
- Metal mounting wings are attached to the media plate and fasten against the drywall as you tighten
- Openings in both the top and bottom allow for multiple configuration options using any two of the three included interchangeable plates: Flexible Opening, 6-Port Keystone, and Blank Plate
- Outlet box included

Specifications:	
Manufacturer	DataComm Electronics
Manufacturer Product No.	45-0061-WH
UPC	660559008881
Surge Dissipation	480 joules
Max. Surge Current	15,000 amps
Clamping Response Time	1 nanosecond
Receptacle Voltage	125V/15A
