CAT6-P-WT

SKU: 9552 UPC: 810070014797

SCP Plenum Rated Cat6 Enhanced 550 MHz 23 AWG Solid UTP Category Cable

SCP Cat6 UTP Plenum cables comply with NFPA-262 and are suitable for installation in ducts and plenums without the use of conduit. These cables are designed for fire resistance and low-smoke. Only plenum rated cables are allowed for USA installation in spaces such as raised flooring systems and air handling ducts.

SCP Cat6 Plenum cables meet ANSI/TIA 568.2-D Category 6 standards. Each cable is 550 MHz 23 AWG insulated solid bare copper conductors with a center spline separating the pairs. This creates a round and flexible cable for easy pulling and stripping of the cable jacket. This cable is UL and CMP rated and it is packaged on a Reel-In-Box (RIB).
