The Just Add Power 2G?/3G Receiver combines the enhanced audio and feature-set of the 3G system with the maximum 1080p resolution of 2G devices. 2G?/3G devices can be installed in 2G and 3G systems.

In 2G systems, a 2G?/3G Receiver is a direct replacement to a 2G Receiver and functions just like a 2G device. In 3G systems, 2G?/3G Receivers provide a lower-cost solution for displays that will only show sources at 1080p resolution or lower.

Just Add Power 2G?/3G integrates seamlessly with both 2G and 3G. Build a 2G? system with 4K expansion plans or mix-and-match with 2G? on 1080p sources and 3G on 4K sources!
