

## Custom Install Series Round 6.5" In-Ceiling Speaker

DT6.5R

SKU: 55128    UPC: 93207099212

Definitive Technology speakers are designed to immerse you in sound. Every element is optimized for superior quality and each part is developed from scratch for audio that delivers and products that endure. The DT 6.5R in-ceiling speaker is purpose-built for multi-room and home theater applications where great performance minimized visibility and ease of installation elevates the experience.

### Features

- Exclusive 6.5" composite mineral-filled polypropylene driver cones offer superior transparency
- An annealed aluminum tweeter dome provides great transients and smooth response
- High definition crossover network with Mylar capacitors delivers the purest high frequencies
- Improved sound dispersion and off-axis response casts incredible sound throughout the room
