Dual Tec Motion Sensor, 35'

DT8035V

SKU: 171261    UPC: 194160005491

Designed with the installer in mind, these high performance small form factor motion detectors offer a trouble-free, out of the box experience to simplify the install process and reduce install time. With the passive infrared IS3035 and IS3050 and DUAL TEC DT8035 and DT8050, optimum performance is achieved using custom developed extended range Fresnel optics, look down, cover and wall tamper, and selectable pet immunity. Leading edge sensing technologies and a wide range of models to suit the requirements of most applications, Honeywell Home family of IS3000 and DT8000 motion detectors will maximize intruder detection while diminishing false alarms.
