

## Logan C4BRK Pre-Construction Bracket for Motion CI MC4 In-Ceiling Speaker

C4BRK

SKU: 169767    UPC: 810123025749

Martin Logan C4BRK Pre-Construction Bracket for Motion CI MC4 In-Ceiling Speaker. Pre-installation brackets are a great way to reserve the location of the speaker during the construction of your home so that potential obstructions don't become an obstacle once the drywall is installed. These brackets also serve as a helpful guide to cut the required speaker opening once the drywall is in place.

The C4BRK is compatible only with MartinLogan's MC4 speaker.
