

Cat6 550MHz ETL Listed Solid UTP 1000'  
Box - Blue

CAT6-BL-ETL

SKU: 63966    UPC: 817777012545

#### SCP Cat6 Enhanced 550 MHz 23 AWG Solid UTP ETL Category Cable

SCPs Category 6 (Cat6) UTP (unshielded twisted pair) cables are manufactured and tested to meet TIA/EIA 568-C.2 Category 6 and ISO/IEC 11801 Ed2 Class E standards. SCP Cat6 cables provide higher performance and headroom than Cat5e and feature more stringent specifications for crosstalk and system noise.

Each Cat6 UTP cable is performance optimized with 4 balanced twisted pairs on 23 AWG insulated solid bare copper conductors. Each pair is separated by a center spline. SCP Cat6 UTP cables are constructed to create a round and flexible cable for easy pulling and stripping of the PVC jacket.

All Cat6 UTP cables are packaged in our award winning Pull Box with guaranteed tangle free pulling.

#### Features

- Category 6 Cable
- Enhanced 550 MHz
- 23 AWG Solid BC
- 4-Pair UTP
- PVC Jacket
- ETL CMR / FT4
- 1000' Box
