Ultra-premium Hi-Fi Headphones

AH-D5200

SKU: 173073 UPC: 883795004428

Denon AH-D5200 Ultra-premium Hi-Fi Headphones. Premium over-ear headphones with exceptional sound, beautiful Zebrawood housing, comfortable engineered leather and memory foam earpads and a 50-year legacy of headphone excellence.

The AH-D5200 headphones feature Japanese-made FreeEdge 50mm drivers. Built from materials chosen for rigidity and low mass, the FreeEdge drivers minimize unwanted resonances in the diaphragm to provide detailed, accurate sound. The drivers are mounted on vibration-reducing, resin baffles. These soft, compliant surround materials make it easier for the drivers to move in response to the music signal without flexing or distorting for the purest possible sound.
