

SAVANT

Panel Bridge Controller - PoE

PBC-P1000-00

SKU: 172840 UPC: 86318400131

The Savant Panel Bridge Controller acts as the primary interface for communication between the Savant Host and Companion Breaker Modules, enabling control and monitoring of a wide range of Savant and RacePoint Energy's revolutionary energy systems, electrical relays, and next-gen panelized lighting solutions. The PBC-P1000 model adds support for Power over Ethernet (PoE)

Features

- Proprietary Bluetooth communication for up to 40 modules
- Stores configuration of all managed loads
- Power over Ethernet (PoE) / 802.3af support
