

1-Gang Claro Screwless Designer Wallplate - Sand

SC-1-SD

SKU: 179828 UPC: 78427628755

The Lutron screwless Wallplate mounts flush against the wall and provides a clean, streamlined appearance. Unlike conventional Wallplates with visible screws, the Lutron Claro 1-gang Wallplate features a two-part configuration - a backing plate that attaches to the wall and vanity plate that easily snaps to the backing plate, covering the screws. The oversized Wallplate hides gaps around wallboxes and works with most large toggle light switches and dimmers.

Features

- Claro
- Sand color
- Flush mount
- Screwless
