

DM10 Compact Center Channel Speaker

DYMEENSION DM10

SKU: 181245 UPC: 747192137076

The Definitive Technology Dymension DM10 Center Channel Speaker features two 5.25" midrange woofers with composite polymer cones to produce better midrange detail, a 1" custom aluminum oxide tweeter for explicit voice, and an integrated 9" passive radiator for a big bass impact. Pair this speaker with the DM40 slim tower speakers and DM95 on-wall speakers (sold separately) to build an ultimate surround setup and deliver dynamic sound through it. The transparent black cloth grille wrapping this center speaker allows it to disappear virtually in dim room lights, so you can focus on the movie, not your speakers. Be it onscreen movie drama, melodies of your favorite singers, or hearing the sonic details while gaming, this high-performing speaker envelops you from every angle and transports you inside every scene and song. The consistent sound across Definitive Technology gives you the flexibility to mix and match Dymension, Dymension CI, and Mythos speakers, which can be voice-matched to design a complete home system.

Features

- Three-driver array for rich, full-range center channel sound
- Built-in passive radiator provides seamless bass impact
- Aluminum oxide tweeter delivers crisp highs and ultra-clear speech
- Long-throw drivers offer superior low-end performance
- Composite polymer cones produce uniform, detailed mids
- Timbre-matched with Definitive Technology speakers
- Black fabric treatment virtually disappears into the room

Dimensions (H x W x D)	7.3 x 19.5 x 12.2 in
Weight	29.1 lbs
Color	Black
Grille Material	Acoustically transparent black cloth (not removable)
