

## DM90 Integrated Height Module for DM80 and DM70 Speakers

DYMEENSION DM90

SKU: 181252    UPC: 747192137236

The DM90 integrated height module attaches to Dymension DM80 and DM70 bipolar tower speakers to provide upward-firing drivers that make the towers Dolby Atmos and DTS:X-enabled. With DM90s attached to DM80 or DM70 speakers, you can create the immersive sound system of your dreams.

An upward-firing mid/bass woofer and tweeter project sound toward the ceiling where it reflects back to you, providing a sense of height that translates to a more immersive listening experience.

An easy snap-in connection system makes electrical connections and secures the height module to the top of Dymension DM80 or DM70 bipolar tower speakers.

Patented Balanced Double Surround System (BDSS) technology improves the midrange and provides a uniform soundstage with seamless bass and mid integration. A Linear Response Waveguide™ extends and smooths off-axis dispersion for great sound everywhere in the room.

### Features

- Purpose-built add-on height modules for Dolby Atmos and DTS:X
- Upward firing drivers bring Atmos soundtracks to life
- Easy, quick, and secure plug-and-play installation
- Aluminum oxide tweeter produces crisp, sparkling highs
- 5.25" BDSS™ driver provides balanced sound, wide listening area
- Timbre-matched with other Definitive Technology speakers
- Accommodates Dymension™ DM80 and DM70 bipolar tower speakers
- Understated design so the speakers virtually disappear into the room
