

## 2U 1000VA UPS Backup Power System

UPX-1000R-2

SKU: 181602

NEXSYS is built on a promise that we've kept for over two decades – more than half the life of the company – that our power products are designed, engineered, and built for AV. It's one thing to say it, it's another thing to prove it. And our NEXSYS Line Interactive UPSs prove it, we promise. They are built with premium components to keep your AV systems running as smoothly as you'd expect.
