

ILLUMIVUE™ BY MSTR

64-Channel NVR (No Hard Drive)

NVR64

SKU: 181669 UPC: 81993201350

Introducing the Illumivue NVR64 64-Channel NVR (No Hard Drive) – the ultimate surveillance solution for your security needs. This advanced network video recorder (NVR) offers top-of-the-line features and performance, making it an essential component for any professional surveillance system.

With its 64-channel capacity, the Illumivue NVR64 provides ample room for connecting up to 64 high-definition IP cameras. Whether securing a home, office, or any other commercial property, this NVR offers the flexibility to accommodate any specific surveillance requirements.

The Illumivue NVR64 supports a wide range of recording resolutions, including ultra-high-definition (UHD) and 4K, ensuring crystal-clear image quality for capturing every detail. With its powerful processor and robust hardware, this NVR delivers smooth real-time video streaming and playback, allowing the user to monitor their property with precision and clarity.

The Illumivue NVR64 also boasts advanced features such as motion detection, event notifications, and intelligent search capabilities. Customize the system to trigger alerts and notifications when any suspicious activity is detected, ensuring that the user never misses a crucial moment. The intelligent search function enables one to quickly locate specific events within the recorded footage, saving valuable time and effort.
