

NEXSYS UPS Backup Power System

UPX-RLNK-2000R-8

SKU: 181877

NEXSYS is built on a promise that we've kept for over two decades – more than half the life of the company – that our power products are designed, engineered, and built for AV. It's one thing to say it, it's another thing to prove it. And our NEXSYS Line Interactive UPSs prove it, we promise. They are built with premium components to keep your AV systems running as smoothly as you'd expect.

Everything is assembled and connected right from the factory saving you time during your installations. The NEXSYS Power Management Software on your PC allows you to customize and configure various settings and notifications. All NEXSYS UPSs have a Pure Sine Wave output and AVR (automatic voltage regulation) providing the cleanest power to your connected equipment, especially the most sensitive equipment.

Features

- 2000VA
- 20 Amp
- 8 Outlets with Individual Control
- Rack ears are pre-installed with the "4-Post" mounting brackets ready to be rack mounted even if you have a 3rd pair of rackrail
- Set reminders or notifications for things like battery replacement, etc. via email or on the UPS
- All UPSs include a 6' (1.8m) IEC power cord
- Easily locate the IP, MAC address and device name via the front LCD screen. You can even see the battery installation date
- Hot swappable battery from the front access panel for easy service without disrupting the system
