IQ Pro Panel in Metal Enclosure PowerG & 345MHz - AT&T

IQPR006M

SKU: 182046 UPC: 820043016291

Qolsys IQPR006M Pro Panel in Metal Enclosure. Supported frequencies: 915MHz (PowerG) & 345MHz. AT&T SIM - with Z-Wave support.

The new IQ Pro, a hybrid panel utilizing the IQ Platform and key features from IQ Panel 4, PowerSeries Neo and customer feedback. IQ Pro will address the needs of commercial, SMB, large residential, campus, and K-12 markets. Building on the IQ Platform, the IQ Pro will support PowerG's advanced sensor technology with industry-leading wireless range and extensive portfolio of life safety and security devices

IQ Pro will give installers the flexibility to connect over Wi-Fi or Ethernet, while simultaneously communicating via LTE. The industry's best Dual Path connectivity improves redundancy and reliability and integrates with the Alarm.com commercial services platform, delivering best in class remote connectivity, management, and access.
