

Smart DC Power Manager

DC12-IP

SKU: 182264 UPC: 5061601037

Nice DC12-IP Smart DC Power Manager

Features

- Space-saving design powers up to 12 devices in one rack space
- Protects connected equipment from power surges and dangerous voltage conditions
- Filters AC for best electronics performance
- Provides remote power + energy management
- Reduces equipment issues/service calls with remote reboots
- Provides visibility on energy usage with cloud-based monitoring and tracking
- Reduces excess energy consumption with scheduled on/off commands
