Single-disk CD Player - Black

CD60

SKU: 180414

The CD60 features a new reference-class DAC that provides up to 24-bit/192kHz resolution. And whether you're playing a CD or using the front-panel USB port to play from an external USB flash drive, a selectable digital filter lets you tailor its performance to your listening preference. You can also use the optical or coaxial digital outputs if you want to connect to an outboard DAC.

#### Features

- Plays CDs, CD-Rs & CD-RWs plus WMA and MP3 CDs
- Supports FLAC, WAV, AIFF, ALAC and DSD playback from a connected USB flash drive (sold separately)
- High-performance 24-bit/192kHz digital-to-analog converter
- DSD 5.6MHz
- Selectable digital filter lets you tailor the DAC's performance to your listening preference
- Double-layered metal bottom plate for vibration resistance
- Newly optimized Marantz HDAM® (Hyper Dynamic Amplifier Module) used in analog circuitry for faster signal transfer and better transient response
- High-performance HDAM-SA2 headphone amplifier with selectable low/mid/high gain settings
- Robust, high-speed power supply for rich, dynamic sound
- Frequency response: 2-20,000 Hz
- Signal-to-noise ratio: 118 dB
- Total harmonic distortion: 0.0015%
