Full Motion Mount for 32" - 47" Panels

VDMF20-B1

SKU: 182460

The Sanus VMF220 full-motion mount for 32" – 47" TVs up to 100 lbs / 45.45 kg is engineered for the easiest installation possible. Our QuickConnect™ system allows the TV to snap onto the arm assembly with one easy movement and unlock with the push of a tab. The amazing FollowThru™ in-arm cable channel protects and completely conceals all cables without inhibiting movement, even through the elbow. Post-installation level adjustment allows the TV to “roll” up to 5° clockwise and counterclockwise to ensure it is perfectly level. Virtual Axis™ allows the TV to tilt up or down with the push of a finger, helping you reduce glare from lights or windows and find the perfect viewing angle. Universal mounting brackets. Mount now fits TVs 32" – 47", and all current VMF220 models have been tested for compatibility with the updated size range.
