

nexTouch Z-Wave Sectional Mortise Keypad Lock - Dark Oxidized Satin Bronze

NTM627-ZW3-613E

SKU: 182485

Upgrade your home security with a Z-Wave compatible lock that alerts you when someone enters or exits your home with the Yale nexTouch Mortise Lock Z-Wave Plus v2, featuring a Touchscreen Cylinder Override with Thumbturn and Augusta Lever. This sectional lock comes with a touchscreen keypad, a deadlocking latch bolt with a turnkey cylinder, an additional thumbturn deadbolt, and a reversible leverset. This smart mortise lock provides three options to access your property: input a 4-8 digit code on the keypad, use a conventional key, or remotely unlock the door through a Z-Wave controller or smartphone app. Utilize a master code to streamline programming and create up to 500 individualized PIN codes that can be shared with a wide range of visitors, including family members, guests, or hired contractors.
