

Z-Wave Plus Assure Push Button Lever Lock Keypad - Bright Brass

YRL216-ZW2-P05

SKU: 182420

The Yale Z-Wave Plus Assure Push Button Keypad Lever Lock adds the assurance of increased home security to any door in your home. Part of Yale's Real Living series, this electronic, motorized keypad lever lock provides a hard-button, tamper-resistant keypad that locks/unlocks the door when a valid passcode is entered. The lever can also be locked/unlocked with a standard turnkey or via Z-Wave Plus, by integrating this Z-Wave lock into your Z-Wave network (optional), you can make your home even smarter with wireless capabilities.

Features

- Lock/unlock 3 different ways: code, key, or Z-Wave
- Backlit keypad for night time code entry
- Enable/disable auto-relocking for custom security
- One-Touch locking with a press of the Yale logo
- Simple Z-Wave enrollment with the push of a button
- Certified ANSI/BHMA Grade 2 and fully gasketed
- Easy to install, battery-powered, no wiring required
