

B1 High-Performance Folded Motion Bookshelf Speaker - White

FB1SW

SKU: 182595 UPC: 810123026357

MartinLogan Foundation Series products redefine affordability by incorporating many of MartinLogan's renowned high-performance technologies at accessible prices. Leveraging 40 years of design and engineering prowess and offering MartinLogan's renowned thin-film performance, Motion Foundation is a gateway into the world of true hi-fi sound. With a choice of 5 different models in 3 different finishes, Motion Foundation speakers are an ideal foundation for building a high performance Stereo or Surround sound system. Bringing high end performance to a wider audience, Motion Foundation offers incredible immersion for all your favorite content. Motion Foundation speakers feature the incredible performance of the Gen2 FMT S, bringing much of the same performance found in our/third larger siblings, in a more compact and affordable package. This high-performance tweeter is paired with a custom Folded Motion Waveguide offering consistent, smooth, and controlled sound across the listening space delivering incredible performance in every seat while also reducing some of the harmful effects of room acoustics. Rounding out the sound are specially designed aluminum woofers for both the midrange and bass drivers offering robust and detailed performance across the board. Motion Foundation models are available in 3 elegant finishes to compliment any decor: Black, Satin White, and Walnut.

Features

- **The MartinLogan Sound:** Regardless of the environment, MartinLogan speakers achieve high levels of articulation, detail, and realism. Utilizing exotic thin film technologies and Controlled Dispersion, MartinLogan provides unique and special listening experiences not commonly found in the industry.
- **Gen2 Obsidian Folded Motion Tweeter S:** The Gen2 FMT S offers effortless performance, unmatched by conventional technologies. By folding thin film material, MartinLogan can pack more surface area into a small space providing incredible detail and clarity sure to bring your favorite content to life.
- **Folded Motion Waveguide:** Enhances the Controlled Dispersion of the Gen2 Folded Motion Tweeter S, blanketing the listening area with incredible detail and precision. Avoids performance robbing room reflections and provides a more consistent sound across a wider seating area.
- **Controlled Dispersion:** Room acoustics are vital, as everything in the listening room has an impact on speaker performance. MartinLogan minimizes these harmful effects by focusing the sound into the listening area, increasing flexibility, clarity, and placement options, regardless of the room's design.
- **Aluminium Midrange and Bass Drivers:** Using trickle down technology from MartinLogan's own Motion XT and Motion Series, the Motion Foundation Series uses Aluminum cone woofers to maximize clarity, detail, and output.
- **McCracken-Vojtko Crossovers:** The culmination of combining extensive anechoic, in-room measurements, and multiple blind listening tests with the low distortion philosophy of MartinLogan's signature Vojtko Crossover. Through this process each speaker was refined to achieve peak performance.
- **Secure Lock Grilles:** Stealth mounting tabs securely hold the grilles in place allowing the listener to customize the appearance of each speaker. Creating a unique look; leaving the grilles on, off, or even rotating them to change the grain of the fabric providing maximum aesthetic control.

- Threaded For Stands: Threaded inserts on the bottom of the speaker allow for secure attachment to MartinLogan's matching speaker stand, the STAND25.

Speaker Type	Bookshelf
RMS Power	50 watts
Input(s)	Binding post
Color	Satin White
Enclosure Type	Bass reflex
Peak Power Handling	100 watts
Impedance	5 ohms
Minimum Frequency Response	48 hertz
Maximum Frequency Response	23 kilohertz
Sensitivity	89 decibels
Tweeter Type	Folded motion
Midrange Type	Cone
Number Of Tweeters Included	1
Tweeter size	1"
Number Of Midranges Included	1
Midrange Size	5.5"
Number of Drivers Included	2
Tweeter Material	Polyimide
Midrange Material	Aluminum
Product Height	13.64"
Product Width	7.25"
Product Depth	9.47"
Product Weight	11.5 lbs
