SONY

85" X77L 4K HDR LED Google TV (2023)

KD-85X77L

SKU: 182621   UPC: 14884382

Powered by Sony's 4K Processor X1 and Live Color technology, movies, shows, and games look immersive and realistic with more vivid colors. Even 2K and HD media can be upscaled to near 4K thanks to Sony's 4K X-Reality PRO. Those those who enjoy sports and action-packed movies, Motionflow XR will create and add frames to keep things smooth and blur-free. Finding what to watch is easy with Google TV built-in, or one can cast from a phone or PC with Chromecast Built-in and support for Apple AirPlay. All of this and more is intuitively managed with the included voice-enabled remote and Google Assistant.

Features

- Google TV OS
- Auto HDR Tone Mapping
- Google Assistant & Chromecast Built-In
- Works with Apple Home & AirPlay
- Upscale 2K & HD Media with X-Reality PRO
- X-Balanced Speaker delivers punchy bass, even in the slim X77L's slim frame
- The narrow bezel helps to put the focus on what one is watching
- Special polyurethane coating on the remote for easier cleaning
- The remote can control multiple connected devices
- The remote offers one-button access to video-on-demand services
