

Sunnata Pro LED+ Touch Dimmer - Brilliant White

ST-PRO-N-BW

SKU: 182962

Lutron's new Sunnata dimmers allow users to easily touch or swipe the light bar to set their desired light levels. The PRO LED+ advanced technology allows for superior dimming of LED, CFL, incandescent, halogen, MLV and ELV lighting. They incorporate advanced dimming technology designed for compatibility with a broad range of high efficacy bulbs, and features such as MyLevel Personalization Advanced Feature Mode to customize the control. Pair with a Sunnata companion dimmer for multi-location control.

Features

- Single pole, multi-location or 3-way mechanical switch control
- Control options: fade-on/fade-off, delayed long fade-to-off, and rapid full-on
- For multi-location dimming, Sunnata companion dimmers offer the exact same look and feel as the primary dimmer. Add up to four companion dimmers with each Sunnata dimmer for control from up to five locations. Light bars respond uniformly across all companion dimmers.
- Works with dimmable bulbs: 250W LED/CFL, 500W INC/HAL/ELV, 400VA MLV
- White light bar provides locator light to easily find the switch in the dark. Brightness of locator light is adjustable and can be turned off
- Easy to adjust dimming range to improve bulb performance
- RTISS technology reduces flickering lights by compensating in real time for incoming line voltage variations
- Each dimmer installs in 15 minutes, and is easy to wire with screw terminals- neutral wire required
- Includes front accessible service switch for safe light bulb replacement
