IQ PowerG In-Wall Switch

IQSWH-PG

SKU: 182967   UPC: 7290109985527

Provide new smart home offerings with leading wireless security technology to your customers to help drive more revenue for your business. Reliable smart home automation connectivity optimizes home comfort and energy efficiency supported by the end user's security system. Proven PowerG technology provides a stable, secured smart home communication network which helps to eliminate the configuration hassle and reduce truck rolls. Military-grade PowerG wireless radio communication enables enhanced encryption for data transmission at long distances.

Features

- Increased product portfolio
- Smart Home integration
- Less hassle
- Increased peace of mind
- Frequency 912-919 MHz
- Communication protocol, PowerG
- Power Supply 120V at 60 Hz
- Maximum current 5A
- Direct wire connection, wire gauge 16 AWG

Frequency	912-919 MHz
Protocol	PowerG
Maximum Noise	24dB at 20cm
Maximum Load	Incandescent 600W, CFL/LED 300W
Standby Power Consumption	<1W
Power Supply	120V at 60Hz
Maximum Current	5A
Wiring	Direct wire connection, wire gauge 16 AWG
Humidity	0 to 85%, non condensing
Operating Temperature Range	0°C to 40°C or 32°F to 104°F
Storage Temperature Range	-20°C to 60°C or -4°F to 140°F
Device Weight	116g
