

2 Space Vented Universal Rack Shelf - 4 Pack

U2V-4

SKU: 69172 UPC: 65674718810

Featuring fully ventilated bottom and sides for heat dissipation, the fully-welded, easy-to-install U2V-4 Pack of 4 3-1/2" Vented Universal Rack Shelf from Middle Atlantic fits all components up to 17 3/8" wide to quickly meet all of your rack mounting needs. This shelf is made from 16-gauge steel, with each unit individually boxed. Also, it includes 3 rear brackets to prevent components from sliding backwards.

The U2V-4 helps to save valuable space by accepting the mounting of the 8 outlets and 15A power strip PD-815SC-PBSH (sold separately) on the rear of the shelf (requires 2 1/4" deep by 18 3/4" wide open space behind the shelf). It also allows the attachment of optional clamping bars to secure components.

Features

- Convenient one-space shelf has high-performance
- Fully ventilated bottom and side areas for maximizing heat dissipation
- Includes 4 U2V vented shelves
- Includes 3 adjustable brackets to prevent components from sliding backwards
- Accommodates most standard non-rackmountable components
- Convenient package saves time and space
- Ideal for installations that require multiple shelves
- Clamping bars (sold separately) can be used to secure component
- Available in one space size for smaller electronic components
- Durable flat black powder coat finish
- GREENGUARD indoor air quality certified for children and schools
- RoHS, EU, and 2002/95/EC compliant
