

Lumaris Tunable Daylight LED Strip Light Kit for RadioRA3

RRL-TLK-DL

SKU: 183979 UPC: 78427631095

The Lumaris tunable white tape light takes scene control to the next level, offering a simple and seamless way to add tunable white accent lighting to Lutron connected home projects.

Built on the ultra-reliable Lutron Clear Connect–Type X wireless technology, the Lumaris tunable white tape light is a native component within the Lutron platform including controls, apps, programming software, and the Lutron Connect cloud services.

A complete Lumaris tunable white tape light solution consists of field-cut tunable white tape, a wireless controller with integrated LED drivers, high-reliability punch connectors, dedicated wiring, and a plug-in power supply. LED tape aluminum mounting channel and lens sold separately by others.

Kit Includes:

- Wireless controller (with plug-in power supply)
- Daylight LED tape (2500 K - 5000 K) - 16.4 ft (5 m) reel
- Wire/tape connectors (5 pack)
- 3 conductor cable - 10 ft (3 m)
