

SAVANT

Dual Adaptive Phase Dimmer Lighting Module, Pigtail

GPM-Q2APD10-21

SKU: 181195 UPC: 043168546706

The Savant Dual Adaptive Phase Dimmer Lighting Module is compatible with a wide range of load types, including LED, incandescent, halogen, electronic-low-voltage (solid state) transformers, magnetic-low-voltage transformers, fluorescents, and dimmable compact fluorescents. This dimmer eliminates much of the guess-work associated with selecting the right dimmer technology for the load, and prevents the need to replace the dimmer if the load type changes in the future. Designed to be compatible with Schneider Electric's Square D™ QO™ load centers.

Features:

- Each output can control up to a 500 VA (volt-ampere) load.
- Compatible with a variety of load types.
- Detects the load type and determines the appropriate dimming type.
- Built-in Energy monitoring; +/- 3% accuracy / 1 sec sample time.
- Color LCD for easy load identification, load status, and energy usage.
- Circuit Power switches on the module let users manually toggle power to Outputs A and B on and off.
- Communicates over the air via Bluetooth Low Energy.
- Compatible with Schneider Electric's Square D™ QO™ load centers.
- Deployment and configuration via RacePoint Blueprint or the Savant Power & Light App.
