Move 2 Portable Smart Speaker - Black

MOVE2US1BLK

SKU: 184078 UPC: 840136808794

Unleash the listening experience with Move 2. Upgraded inside and out, this portable powerhouse puts heart-pumping stereo sound wherever it's wanted. Listeners can enjoy up to 24 hours of non-stop playback. Rated IP56, this speaker is both dust and water resistant, making it perfect for outdoor use.

Features

- **Powerful stereo sound:** The acoustic architecture replaces Move's single tweeter with two, unlocking a higher-fidelity stereo soundstage with crisp vocals and detailed instruments. With deep, dynamic bass powered by the precision-tuned woofer, listeners feel the emotional charge of a live performance.
- **Tuned to its environment:** With automatic Trueplay tuning, Move 2 continually optimizes the sound for its surroundings. So, no matter where or what is played, the listener will get an elevated listening experience.
- **More than double the battery life:** Listen twice as long as with the previous generation. All the acoustic updates work in concert for increased efficiency, providing up to 24 hours of playback on a single charge.
- **Ultra durable and water resistant:** Shock absorbent materials protect against accidental drops, and the IP56 rating ensures spills, splashes, rain, dirt, and dust don't dampen the listening experience.
- **One speaker, infinite listening possibilities:** Whether they want to put on a podcast in the kitchen, listen to radio by the pool, or play music at the park or beach, Move 2 does it all. Plus, easy multi room audio is possible with more Sonos speakers around the home.
- **Easier to take it anywhere:** Use the built-in handle to bring music from one place to the next. When the battery needs a boost, set Move 2 on the included Wireless Charging Base, upgraded with a detachable power cable and more compact adapter. Charge on the go with any USB-PD power supply.
- **Favorite sounds are just a tap or ask away:** Stream using WiFi and Bluetooth. Control the sound with the Sonos app, voice, and the intuitive touch controls. You can also connect a turntable or other device with an auxiliary cable and the Sonos Line-In Adapter.
- **Toned down impact:** Move 2 reduces its idle energy consumption by more than 30% compared to its predecessor, incorporates recycled plastics, and features a removable and replaceable battery, so it can be enjoyed for even longer.
