

IQ4 NS Screen-less Automation Panel - AT&T

IQPK072

SKU: 184197 UPC: 850037136643

The Qolsys IQ4 NS is a no screen automation hub. It comes with an AT&T LTE communicator and connects to Alarm.com's services. Use the Alarm.com app, which is available for Android and iOS, or use the Alarm.com website. The IQ4 NS can be the smart home hub to manage your entire setup. It is also versatile, as it leaves the option open to expand it to fulfill your alarm system needs as well.

Automation only, no SRF. Purchase a daughter card to enable security functions.
