Mac Studio M2 Max Host

SVR-6300S-00

SKU: 184295 UPC: 810136784930

SVR-6300S is a Savant Host running on the Apple® Mac Studio M2 Max hardware platform. This key building block within a Savant system includes an M2 Max processor and a solid state drive for performance and reliability. The Host is not only the brains of the system that allows for high-level automation and control, it is also the central server for all user interfaces, and the connection point for system administration and monitoring.

Starting with da Vinci 10.4, all Mac Hosts now get their feature set based on the license applied. This Host can run with an EVO Core or EVO Unlimited license, which will allow you to pair the Host to the right size job.

All Mac M2 Hosts running EVO Core or EVO Unlimited licenses must have an active Savant Essentials subscription at the time of configuration upload.
