SCP HNCPROPLUS+ Cat6 HDBaseT Enhanced 550 MHz UTP Category Cable

SCPs HNCPROPLUS+™ for Cat6 raises Category 6 UTP performance to a new level. HNCPROPLUS+ for Cat6 are the industrys first HDBaseT category cables. HNCPROPLUS+ cables provide superior HDBaseT performance for your HDBaseT devices.

HNCPROPLUS+ UTP cables consistently outperform standard Category 6 UTP cables and are certified to meet todays demanding commercial and residential Networking and A/V applications for Twisted Pair cables.

Each HNCPROPLUS+ UTP cable is performance optimized with 4 balanced twisted pairs with center spline on 23 AWG insulated solid bare copper conductors. HNCPROPLUS+ UTP cables are constructed to create a round and flexible cable for easy pulling and stripping of the PVC jacket.
