

LTE Module for Select Interlogix Simon Panels - Verizon

XT-510-US-VZ

SKU: 162372

Alarm.com XT-510-US-VZ LTE Module for Select Interlogix Simon Panels Verizon brings Alarm.com's secure wireless signaling, real-time notification and web-based remote monitoring and control capabilities to the Interlogix Simon XT/XTi/XTi-5 panel. Its digital wireless communication via the LTE network enables secure alarm reporting to any central station via SIA or Contact ID, regardless of whether a phone line is installed at the system location.

Features:

- Secure Wireless Signaling via Verizon LTE
- No phone line required (VoIP Compatible)
- Remotely programmable via Alarm.com's AirFX web toolkit
- Enables Alarm.com interactive monitoring and alerting for end users
- Supports two-way voice over LTE (requires firmware version 185+)
- Integrated support for Alarm.com emPower home automation and energy management platform
- Compatible with Alarm.com Image Sensor (additional hardware required)
