

UltraPoE

4K Single Channel HD Video Balun

CT-VBHD-VP

SKU: 186056

UltraPoE CT-VBHD-VP 4K Single Channel HD Video Balun. It is a passive high-definition TVI transmitter, a small size and easy installation, transmission distance of color signal up to 200m, EX-SDI signal up to 70m. It is suitable for middle-distance video surveillance, such as office buildings, community centers, schools, and hospitals.

Features

- Hybrid Passive Balun/No Power Required..
- Real-time Transmission over UTP cat5e/6
- Compatible with all HD-TVI,CVI AHD and EX-SDI 4K analog camera
- Stackable Design, Extend One Channel to Multi-Channel
- RJ45 Jack for UTP cable
- Real-time Transmission over UTP CAT5E/6
- Super Interference Rejection
- Transmission Signal: 1080P, Max.250M 720P,Max.200M,4K
- Built-in Surge & Transient Protection & Lightning Protection
- Utilizes 105°C Long-life Electrolytic Capacitors.

Transmission distance	720P:300m (max) 1080P:250m (max) 4K:200m?max? EX-SDI:70M(max)
Category Type	UTP CAT5/5E/6
Impedance	Coax, Male BNC 75 ohms unbalanced UTP, RJ45 100 ohms balanced
Power Input	12VDC/24VAC, via UTP CAT5E/6
Power Transmission	12VDC/24VAC, via UTP CAT5E/6
Video Input/Output	Male BNC Connector
Video Input/Output	RJ45 Jack

Coaxial cable connector	2KV(common-code) Per: IEC1000-4-5
Size of Casing	60.4x29x20.4mm
Shell	ABS+PC
MTBF	>10000H
Operating Temperature	-10-55°C
