

ELPMB67 Adjustable Ceiling Mount for Pro Series Projectors

V12HA54010

SKU: 183912 UPC: 10343964600

Simplify projector installations with the versatile ELPMB67 projector ceiling mount. Designed with flexibility in mind, this convenient ceiling mount easily supports a variety of projector adjustments — including vertical, horizontal and rotational tilt — to accommodate a range of applications. Plus, the mount offers a convenient forward and backward slide capability ideal for lenses that lack zoom features such as ultra-short throw lenses (UST). The ELPMB67 supports 360-degree directional mounting and includes M6 bolt holes for easy truss mounting via clamps. Pair with the ELPFP15 suspension adapter? for high-ceiling mount applications.

Features:

- **Provides a wide range of adjustment options** — including vertical, horizontal and rotational tilt
- **Forward and backward slide capability** — compensates for lenses that lack zoom, such as ultra short-throw lenses
- **Flexible installation** — pair with the ELPFP15 suspension adapter for high-ceiling mount applications
- **Supports 360-degree directional mounting** — for portrait-projection, inclined-ceiling and desktop-mounting applications
- **Easy truss mounting** — two M6 bolt holes for easy truss mounting via truss clamps (not included)
- **Tilt angle** — vertical: +5 to -15 degrees; horizontal: +5 to -5 degrees
- **Horizontal rotation angle** — +5 to -5 degrees
- **Forward/backward slide** — +/- 36 mm
- **Durable design** — supports up to 88 lb/40 kg; unit weight: 12.6 lb/5.7 kg
- **Convenient handling** — two handling grips to help lift with projector attached
