## EpiqVision Ultra LS300 Smart Streaming Laser Projector

V11HA07020

SKU: 183923    UPC: 10343959279

Immerse yourself in a new type of screenless TV experience with the Epson EpiqVision Ultra LS300 Smart Streaming Laser Projector. Utilizing an advanced, ultra-short throw design and sound by Yamaha, viewing content has never been easier. Simply place the projector just inches from the wall and watch TV shows, sports, movies and more up to an astonishing 120".

Featuring built-in Android TV with wireless connectivity, the Epson EpiqVision LS300 Streaming Laser Projector gives you seamless access to popular streaming services including Hulu, HBO, Disney+ and YouTube™<sup>3</sup>, right out of the box. So, whether you're binge-watching your favorite TV shows, or hosting movie night, the Epson EpiqVision LS300 Streaming Laser Projector makes it easy to stream big, bright images virtually anywhere in your home.

### Features?

- **Chromecast Built-In** - Wirelessly cast your favorite content directly from your smart phone, tablet, or computer – including from popular Android and Apple devices.
- **Advanced Scene Adaptive Color Correction** - Automatic scene-based color correction produces a clear and natural picture – regardless of the content being played.
- **Even Better with a Screen** - When used with an optional ALR screen, the visual performance is stunning and rivals the picture quality of the best televisions.
- **Award-Winning Service & Support** - Standard 2-year limited warranty, full-unit replacement, along with free technical phone support for the life of the product.
- **True 3-Chip Projector Design** - Advanced 3LCD technology displays 100% of the RGB color signal for every frame. This allows for outstanding color accuracy while maintaining excellent color brightness, without any distracting “rainbowing” or “color brightness” issues seen with other projection technologies.
- **Elegant Design** - Designed with simplicity in mind, the Epson EpiqVision Ultra LS300 Streaming Laser Projector has a clean and modern aesthetic to beautifully fit within any décor.
- **Ultra Short-Throw Laser Array Technology** - Unique multi-array laser diode technology produces an exceptional level of brightness while significantly enhancing the black density.
