

## WUXGA 3LCD Laser Projector with 4K Enhancement

V11HA52820

SKU: 183720    UPC: 10343964730

The world's smallest and lightest 10,000-lumen laser projector

The EB-PU2010B, part of Epson's Pro Series, offers larger-than-life images from a sleek, powerful projector that's easy to install. The world's smallest and lightest 10,000-lumen laser projector<sup>1</sup>, it's compatible with a wide range of optional powered lenses, including a zero offset, .35 ultra short-throw lens.

Featuring 10,000 lumens of color brightness and 10,000 lumens of white brightness, this 3LCD projector provides a virtually maintenance-free 20,000-hour laser light source and air filter.

Full HD WUXGA resolution and 4K Enhancement Technology (1920 x 1200 x 2) mean you get crystal-clear, lifelike images. SDI video in/out and built-in NFC function reduce the time to install and commission multiple projectors. And an optional attachable PixAlign external camera provides access to powerful automated tools including auto color calibration, screen matching of multiple projectors, blending assist for edge blends, and the stacking assist function.
