EB-PU2010W WUXGA 3LCD Laser Projector with 4K Enhancement

V11HA52920

SKU: 183721 UPC: 10343964747

The EB-PU2010W, part of Epson's Pro series offers larger-than-life images from a sleek, powerful projector that's easy to install. The world's smallest and lightest 10,000 lumen projector, it's compatible with a wide range of optional powered lenses, including a zero offset, .35 ultra short-throw lens.

Delivering best-in-class color brightness, with 10,000 lumens of color brightness and 10,000 lumens of white brightness, this 3-chip, 3LCD projector features a virtually maintenance-free 20,000 hour laser light source and air filter.

Full HD WUXGA resolution and 4K Enhancement Technology (1920 x 1200 x 2) mean you get crystal-clear, lifelike images. SDI video in/out and built-in NFC function reduces the time to install and commission multiple projectors. And a clip-on optional external camera provides access to powerful automated tools including auto color calibration, screen matching of multiple projectors, tiling assist for edge blends and the stacking assist¹⁰ function.

Features:

- 10,000 lumens color/white brightness
- Native WUXGA with 4K Enhancement Technology
- Laser light source — up to 20,000 hours of use
- 9 optional powered lenses
- NFC function built-in
- **Lifelike images** — high native contrast ratio, HDR support and scene adaptive gamma correction for more realistic images and easy-to-read presentations
- **Optional external air filter** — extend the filter maintenance cycle in dusty environments
- **Dynamic projection capabilities** — advanced built-in Edge Blending, image warping and shape overlay features for a variety of applications; direct content playback from USB storage media
- **Customized performance** — brightness modes to maximize light source life and provide a consistent brightness level
- **Powerful remote management** — control and monitor projector status via the Epson Projector Management app for Windows
