## Metropolitan Wireless Configurable Keypad Bi-Phase Dimmer V2 - Light Almond

WIB-LAB106V2-00

SKU: 185398    UPC: 863184007209

The Savant Metropolitan Wireless Configurable Bi-Phase Dimmer is designed to be manually set to forward or reverse phase dimming types during configuration, allowing for the elimination of visible calibration during reset or power-on. Buttons on the Configurable Bi-Phase Dimmer can be field-configured with up to 8 different layouts and programmed to activate scenes including lighting, shades, climate, AV and other services. Supports 5 GHz and 2.4 GHz Wi-Fi bands. New Roaming Assisted Discovery (RAD) allows multiple keypads to be provisioned to the local network. Simply provision one keypad, enable RAD, then join the other keypads to the network with the push of a button. Faceplates sold separately.

**NOTE:** Does not support Magnetic Low Voltage (MLV) loads. For MLV loads, ensure that a Forward Phase keypad with MLV compatibility is used.

### Features

- Supports Forward Phase or Reverse Phase dimming, selected and set manually during configuration
- Ambient Light Sensor - Detects the level of ambient light in the room and adjusts the LED brightness on the front panel
- Field-configurable to accommodate 3, 4, 5 and 6 button layouts. Up to 8 different layout options.
- Works with the auxiliary control for wired 3-way applications
- Fits standard decorator-style wall plates
- Communicates with an 802.11 b/g/n wireless network
- Supports 5 GHz and 2.4 GHz Wi-Fi bands
- Roaming Assisted Discovery (RAD) - Makes provisioning keypads faster, and more efficient
- Simple to configure and deploy using Blueprint Lighting & Shades Device Manager
