

## WiFi 6 Mesh Router BOGO Free Bundle

IQWF6-BOGO

SKU: 186540

**Buy one get one free- just add this item to your cart and apply the discount code IQWF6BOGO!** The Qolsys IQWF6 IQ WiFi 6 new purpose-built mesh router solution is now available for homes and businesses with security, automation and Wi-Fi devices. The IQ WiFi 6 is a Wi-Fi Alliance Certified router with Alarm.com management software built in, delivering improved end-to-end user experience and reduced dealer maintenance, support calls and truck rolls.

The Qolsys IQWF6 is a mesh capable router that covers every corner of every room with safe, seamless WiFi up to 1,500 square feet per point. The IQ WiFi 6 router is used to connect Qolsys-compatible WiFi devices such as; Alarm.com security cameras, Alarm.com video doorbells and the Qolsys touchscreen keypad inside a home or business to the Qolsys IQ Panel security system.

When paired with the Qolsys IQ Panel, the IQ WiFi 6 delivers 3 unique network/SSIDs: one for the end user's personal or business devices, an easy-to-join guest network, and a dedicated security network for the dealer's installed devices such as cameras, doorbells, and garage openers. These networks can be managed and maintained by end users and service providers through the panel's 7" touchscreen, iOS and Android mobile apps, and the Alarm.com website and Partner Portal.

IQ WiFi 6 leverages The Qualcomm® Networking Pro 400, a highly flexible Wi-Fi 6 platform designed to meet the growing demands of crowded WiFi environments.
