

1080P Indoor/Outdoor Dome Camera

ADC-CVKIT-VC827P

SKU: 186585

The ADC-VC827P is a dome camera offering 1080P quality video recording with a live view resolution selection of 1920 x 1080, 1280 x 720, or 640 x 360. The field of view is 111°. It offers excellent night vision capability using infrared. The sensitivity is 0 lux with IR with a night vision range of up to ~95 feet (30 meters).

The Alarm.com ADC-VC827P is another entry into the Pro Series Camera lineup. It supports Power over Ethernet (PoE) which provides both power and network connections in a single Cat 5e cable. If the router or switch being used doesn't support PoE, then a Power over Ethernet injector can be used instead. The ADC-VC827P doesn't support WIFI, instead relying on a wired network connection. This ensures the fastest possible upload and download speed, providing the best video quality for both live view and playback.

Features

- 24/7 Onboard & SVR Recording
- Business Activity Analytics
- 4MP recording options for increased clarity
- HDR (High Dynamic Range) and WDR (Wide Dynamic Range) video IR night vision up to 95'/30m
- Waterproof, dust-tight, and impact resistant
- Motorized varifocal lens options (on some models) for greater installation flexibility
- Compliant with Section 889 of the NDAA (National Defense Authorization Act)
- Powered by PoE or 12 VDC

Connectivity Technology	Wired
Field of View	111°
Lens Type	Fixed
Maximum Focal Length (mm)	2.8
Night Vision	Yes
Effective Camera Resolution	4 MP
HD Recording	Yes
Maximum Aperture	f/1.6
Maximum Frame Rate	30 fps
Night Vision Type	Infrared
Night Vision Distance	98.43 ft
Maximum Video Resolution	1920 x 1080
Focal Length	2.8 mm
Durability	Dust Resistant, Impact Resistant, Water Proof, Water Resistant
Input Voltage	12V DC
