## Ace Over-Ear Wireless Noise Canceling Headphones - Black

ACEG1US1BLK

SKU: 186992    UPC: 840136811022

Sonos Ace perfects the personal listening experience. Feel every frequency with superior precision and clarity. Maximize the immersion with lossless streaming, spatial audio with dynamic head tracking, and world-class Active Noise Cancellation. The user can hear what's going on around them with Aware mode. Sonos Ace offers up to 30 hours of battery life, exceptional comfort, and flawlessly clear calls.

### Features

- **A new personal best for sound:** The custom-designed driver renders each frequency with superior precision and clarity. From crystallized highs to thundering bass, everything the user hears feels more profound.
- **Mind-blowing lossless and spatial audio:** Experience a deeper connection to music when streaming lossless audio over Bluetooth® or USB-C.
- World-class Active Noise Cancellation pinpoints and neutralizes external sounds for maximum immersion. Users can turn on Aware mode to hear what's going on around them.
- **Obsessively crafted for comfort:** Plush memory foam ear cushions create an exceptional acoustic seal and minimize pressure. The extendable stainless steel band and rotating ear cups adjust for a bespoke fit.
- **Battery that lasts and charges ultra fast:** Listen or talk for up to 30 hours with Active Noise Cancellation enabled. Get 3 hours of battery life with a quick 3-minute charge using the included USB-C cable.
- **The clearest of calls:** Beamforming microphones target the voice and suppress background noises so every word comes through crisp and clear.
- **Super natural control:** Intuitive tactile controls make it easy to adjust the volume, skip between tracks, control noise, take calls, and activate the voice assistant. Wear detection automatically pauses audio the headphones are taken off and resumes when put back on.
- **The most precise and immersive home theater experience:** Instantly swap TV audio from a compatible Sonos soundbar to Sonos Ace. Spatial audio with Dolby Atmos creates dramatically detailed sound from all directions, and dynamic head tracking turns listening into a uniquely interactive experience.

Drivers	Custom-designed 40 mm dynamic driver in each cup
Microphones	Eight microphones for noise control and voice targeting
Spatial audio	Stream spatial audio content from supported services and devices
Lossless audio	Enjoy lossless audio over Bluetooth with a supported device or via a USB-C connection
