

## U7 Outdoor Dual-Band Wi-Fi 7 Access Point

U7-OUTDOOR-US

SKU: 187753

Experience fast and reliable wireless connections in outdoor areas by expanding your network with the UniFi U7 Outdoor Tri-Band Wi-Fi 7 Access Point from Ubiquiti Networks. Supporting over 200 concurrent connections, this IPX6-rated Wi-Fi 7 (802.11be) access point mounts onto a wall or pole to provide up to 4.3 Gb/s transfer speeds over the 2.4 and 5 GHz bands.

The two detachable, software-adjustable external omnidirectional antennas work with the one internal directional antenna to provide you with up to 5000 square feet of coverage. Connect the 2.5G Ethernet port to a PoE+ compatible switch to transfer power and data over a single cable. Use the UniFi Network application to set up, configure, and manage your device. Your wireless connections are protected by WPA3 encryption.

### Features

- Wi-Fi 7 (802.11be)
- Up to 4.3 Gb/s Total Throughput
- 2.4 / 5 GHz (Dual-Band)
- 1 x 2.5G Ethernet PoE+ Port
