

VICTROLA

Stream Sapphire Works with Sonos Turntable

VPT-4000-WLN

SKU: 187973 UPC: 81003311312

The award-winning Victrola Stream™ Works with Sonos® turntable line brings the heritage of Victrola into the modern era of Wi-Fi connectivity. The acclaimed design, integrated volume and wireless control knob, and hassle-free setup paired with high-quality components bring a premium vinyl experience to everyone.

Elevate your vinyl listening experience with the flagship Victrola Stream Sapphire Wi-Fi streaming turntable, featuring upgraded turntable components, a real wood veneer plinth, and unrivaled connectivity. The Stream Sapphire features Victrola Stream's Works with Sonos software and introduces VINYLSTREAM Wi-Fi™ for streaming to most network audio devices in up to 24-bit/48kHz lossless FLAC.

Enhanced by a new brushless motor, adjustable-height feet, and Ortofon 2M Blue cartridge, the Victrola Stream Sapphire sets the standard as the ultimate Wi-Fi streaming turntable.

Features

- Noiseless DC brushless motor with electronic speed control provides quiet and consistent speed.
- Low-resonance MDF plinth with real walnut wood veneer.
- Carbon-fiber tonearm with custom-designed removable headshell and adjustable counterweight with pre-fixed alignment guides for easy setup.
- Adjustable-height aluminum feet with sound dampening base for easy leveling and vibration isolation.
- Gold-plated RCA outputs with in-app latency and output controls for manually syncing and switching between wired and wireless zones.
- Ortofon 2M Blue cartridge with nude elliptical stylus pre-mounted on removable headshell for enhanced detail and clarity.
