

SONANCE

## I10 Impact 10" Cabinet Subwoofer

93357

SKU: 188146    UPC: 041093933578

Add customized, powerful subwoofer range to your sound system with this wired or wireless Sonance subwoofer. Its 300W amplifier drives a 10-inch, ultra-long-throw glass fiber cone for responsive bass, and it connects with speaker-level, line-level and low latency wireless inputs for flexible configuration. This Sonance subwoofer's app-driven room correction capability ensures sound that matches any listening space.

### Features

- 10" active subwoofer: Delivers authoritative bass for high-impact home theater audio.
- 300W amplifier handles up to 600W peak power: For robust and controlled audio that is crisp and clear.
- Built-in wireless receiver: Allows placement in a variety of locations. Sonance wireless transmitter is required (not included).
- Laminar flowport design: Delivers thunderous low-end sound.
- Inputs: Include RCA audio line-in and speakers input to provide flexible connectivity options.
- Bass reflex design: Delivers thunderous low-end sound.
- 24-250Hz frequency response: Delivers booming lows for an immersive soundscape.
