

2.8" Intelligent Surface Remote Control

ISR-2

SKU: 188793 UPC: 810064991561

The vibrant 2.8" touchscreen display pairs with a numeric keypad and soft-touch buttons, a thoughtful balance ensuring seamless control for any media system. The intuitive 5-way thumbpad, full transport controls, and carefully selected soft-touch buttons offer real-time haptic feedback, making every command precise and responsive.

The ISR-2 features advanced Wi-Fi technology for instant and reliable network connectivity. Plus, its built-in accelerometer activates the remote as soon as it's picked up, ensuring it's always ready for action without any delay. The ambient light sensor automatically adjusts the display brightness to match the room's lighting conditions for optimal visibility.

The ISR-2 intelligently hibernates when not in use, delivering up to 6-7 days of battery life between charges with typical use. Plus, the included charging base ensures the remote is always ready when you need it.

The ISR-2 programs with RTI Integration Designer[®] software to deliver a 100% customizable experience exclusive to RTI control and automation systems.

Features

- Flush-mount, 2.8" capacitive LCD touchscreen (240x320).
- Thin, sleek design with superb ergonomics.
- Wi-Fi control.
- Integrated 802.11b/g/n wireless Ethernet enables viewing MJPEG video, wireless program updates, enhanced two-way control and more.
- Accelerometer provides "instant-on" control.
- Thirty-two assignable/programmable soft-touch buttons for commonly used functions.
- Two individually illuminated programmable capacitive touch buttons on the touchscreen.
- Cursor button allows simple scrolling list navigation.
- Includes a Lithium-Polymer battery and charging base.
- Extremely wide IR transmitting frequency range.
- Completely customizable and programmable.
- Non-volatile Flash memory stores your system configuration even when power is not present.
