

## 4-Button In-Wall PoE Keypad Controller

KP-4

SKU: 188800    UPC: 810064991370

The KP-4 keypad is the perfect addition to an RTI control system for fast and convenient control of music, lights, shades, and other devices or systems. With four fully programmable buttons, the KP-4 keypad provides intuitive two-way feedback via configurable backlight colors for each button.

The KP-4 keypad ships with two sets of keypad faceplates and matching keycaps — one white and one black. For an elevated look and control experience, use RTI's Laser Shark™ engraving service to personalize the keycaps with custom text and graphics. These are available in White and Satin Black.

Compatible with Decora® style wall plates and sized to fit in a single gang US box, the KP-4 keypad seamlessly integrates into homes and commercial buildings with a clean, intuitive on-wall control solution to match any decor.

For installation convenience, the KP-4 keypad is PoE powered, using the same network cable that runs control communication with the RTI processor.

### Features

- Four assignable/programmable buttons.
- FREE Laser Engraving for custom text and graphics. A certificate for one free Laser Shark™ engraved keycap set included with purchase.
- Control communication and power over Ethernet (PoE).
- Ships with white keypad faceplate and keycap label kit, and one black keypad faceplate and keypad label kit.
- Backlight color is programmable on each button (16 colors available).
- Completely customizable and programmable.
- Fits in a single gang electrical outlet box.
- Network or USB Programming.
- Use any standard Decora® type wallplate (not included).
